

Healthy Aging: Challenges and Solutions

In *Healthy Aging: Challenges and Solutions*, the nations leading experts, researchers, analysts, and educators present their frustrations, findings, insights, and recommendations on what current research reveals about the promise of healthy aging, how we are unprepared for the long-term chronic needs of an aging population, and why we need to rethink how the nation spends health care dollars. Edited by Dr. Ken Dychtwald, one of the nations foremost visionaries and leading authorities on the aging of America, this anthology will open your eyes to our nations lack of readiness to meet the staggering health care needs of an aging society, and what must be done to head off the fast-approaching health care logjam.
