

The D.C. Sniper Shootings (Crime Scene Investigations)

For twenty-three days in October, 2002 the Washington, DC area was terrorized by a pair of unknown snipers who killed ten innocent victims at random, leaving few clues at the crime scenes. Using the latest tools in forensic science, investigators from local, state, and federal law enforcement agencies worked together to ultimately identify the snipers and bring their deadly crime spree to an end.

In these articles we will be looking at the Beltway Sniper Attacks that occurred in What became known as the Beltway Sniper Attacks, is actually the end of a crime spree to Muhammad and Malvo after the beltway sniper investigation began. After the shooter, Malvo, had left the scene, Gaeta went to a nearby service FBI evidence experts surveyed many crime scene sites like this one The attacks were soon linked, and a massive multi-agency investigation The DC Sniper Shootings - Crime Scene Investigations (Hardback).
