

Self-Assessment Color Review of Small Animal Soft Tissue Surgery (Sac)

Compiled by an international group of authors using clinical case presentations and illustrated with superb-quality color photographs, imaging and diagrams, this book covers all aspects of soft tissue surgery, including preoperative patient management, and surgical preparation and technique. The randomized self-assessment format is used to enable readers to think through each case step by step, allowing them to consider fully each problem before the diagnosis and a suggested treatment plan is revealed. This book provides an excellent interactive resource for veterinary students and for practicing veterinarians in their continuing professional development.
