

My Night in the Planetarium

On its surface, *My Night in the Planetarium* is a modern Indonesian children's story about one night in the late 70s that the author got to spend in the Jakarta planetarium. But it's actually much more than that. It's an introduction to the history and culture of Indonesia. It's about colonialism, revolution, how power corrupts, and how through creativity and solidarity liberation can be won. It is about the Art of Resistance.
